- 1.50 inch Phenolic Grating = ESK8151

STANDARD GALVANIZED

PHENOLIC

SLIP PROOF RIGGED SURFACES

**WHAT
ARE
ESK's?**

ESK's are SSI's engineered packages of additional components (or modified components) to "add-on" to your existing SSI offshore capsule, winch and/or platform. The goal of these kits is to offer additional functionality, ease of operation and ultimately added safety to your Survival Systems International equipment. Since SSI is the OEM of your equipment, as well as the designer and manufacturer of these Enhanced Safety Kits, the installation process is seamless and cost effective.
