

ENHANCED SAFETY KIT FOR OFFSHORE CAPSULES

SURVIVAL
SYSTEMS
INTERNATIONAL

ADDED FEATURES - DESIGNED FOR YOUR CAPSULE - OEM CERTIFIED COMPONENTS - INSTALLED ONSITE - ADDED SAFETY

MAN OVERBOARD KIT

MODELS: Currently available for all SSI Capsules.

SAFETY BENEFITS: This kit is designed to allow a person who has fallen overboard to be recovered from the water with minimum of effort using the closed cell, foam-filled, vinyl fabri-covered slide mat. The Telescopic Grabbing Hook Device is also available with this kit for added safety and security in man overboard recovery actions.

TELESCOPIC GRABBING HOOK DEVICE

WHAT ARE ESK's?

ESK's are SSI's engineered packages of additional components (or modified components) to "add-on" to your existing SSI offshore capsule, winch and/or platform. The goal of these kits is to offer additional functionality, ease of operation and ultimately added safety to your Survival Systems International equipment. Since SSI is the OEM of your equipment, as well as the designer and manufacturer of these Enhanced Safety Kits, the installation process is seamless and cost effective.
