**RESET HOOK
FROM HELMSMAN
POSITION**

Specifically designed for harsh conditions, SSI Twin fall lifeboats are constructed using materials designed to withstand highly corrosive marine environments. This ensures a long and trouble-free operational life, with minimal maintenance requirements.

Plus, utilizing the inherently safe Triple 5LX Hook (in our twin fall lifeboat models) allows us to offer enhanced load over centre safety all at an affordable price.

Twin Fall Totally Enclosed Lifeboat

TOTALLY ENCLOSED MOTOR PROPELLED SURVIVAL CRAFT

Features include but not limited to:

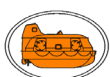

- Made of Fire-retardant glass fiber reinforced polyester
- SOLAS/LSA certification according EU Wheelmark MED Approval
- American made hooks with lift over center design
- Hook design eliminates the hydrostatic unit for reduced operational risk and maintenance.
- Resetting hooks at the helmsman's position reduces coordination required with crew members
- European made engine from renowned engine supplier

| MODELS | CAPACITY | DIMENSION (LXWXH) |
|--------------|----------|----------------------|
| SSI T5LB-022 | 22 pax. | 5.00 x 2.20 x 2.85m |
